

21st European Biosolids & Organic Resources Conference & Exhibition

Edinburgh International Conference Centre (EICC)

15-16 November 2016

Following last year's exhibition sell out, this highly-regarded annual conference offers a fantastic opportunity to increase your company's profile and gain brand awareness through sponsorship & exhibiting. It offers an excellent platform to engage with potential clients and be associated with Europe's leading conference for the biosolids and biowaste industries.

Over the past 20 years, the conference has developed a brand of its own and a reputation for quality which adds value for all organisations that are associated with it. This isn't a one off marketing opportunity – the Conference offers sponsoring organisations the opportunity to become involved on a regular basis in a prestigious and talked about industry event.

The packages below are just a guide to what is on offer – if you would like to discuss specific requirements please don't hesitate to get in touch. e. sarahbrown@aquainviro.co.uk, t. +44 (0)1924 257891.

"I have been attending the Biosolids conference for the last 14 years. The possibility to meet the key technical people involved in the different aspects of the sludge treatment during 2 or 3 days, outside the conventional business environment, is invaluable. I have always found some of the presentations very interesting regarding the new technologies or feedback from site operations. I believe the Biosolid conference is the best technical event in Europe related to Sludge."

Technical Director, Veolia Water Technologies

All prices exclude VAT @ 20%
