

EUROPEAN BIOSOLIDS & ORGANIC RESOURCES CONFERENCE & EXHIBITION

20 - 21st November 2017, The Royal Armouries, Leeds

EXHIBITING & SPONSORSHIP

The [European Biosolids Conference and Exhibition](#) is Europe's foremost conference for the biosolids and biowaste industries.

The 2017 Biosolids Conference will be held at the Royal Armouries in Leeds on the 20-21st November 2017 with water industry and organic resources site visits on 22nd November.

Attendees have fantastic networking opportunities with over 250 recognised professionals from around the world and the latest presentations from high-profile water and resource management industry experts.

Now in its third decade, 'The Biosolids' gives an essential annual update on: legislative changes, new technologies, best practice and site-experiences with existing technologies and an insight into relevant research in the science and engineering encompassing biosolids and organic resources production and use.

Topical issues to be examined include: Water 2020, BREXIT, BREF, PR19, maximising energy production and new and innovative approaches to biosolids and organic resource management; this is a must attend event.

The 2017 draft programme will be available from early July; you can see last year's 2016 conference timetable [here](#)

Why exhibit?

- Access a targeted audience of 200-300 industry specialists
- The chance to promote your organisation at the free drinks reception in the exhibition area.
- An ideal platform to launch new products or find new markets.
- Opportunities to learn more about future industry trends.
- The ability to see and evaluate competition.
- All exhibiting companies receive 20% discount on delegate fees

The conference exhibition offers a relaxed and informal opportunity to meet with representatives from the UK water companies, consultancies, technical associations, universities, research establishments, process suppliers, Government departments and agencies. The exhibition is

Testimonials

"From my experience, this conference remains the best in its field... A consistently high technical level of papers based on latest and cutting edge technologies and ideas"

Technical Director, Cambi

"One of the best conferences I have attended, very inspiring and well balanced."

Environmental Regulation Manager, Welsh Water
